

ALPHA VICO

We are committed to reducing our environmental footprint through sustainable practices

- ✓ 100% Quebec-made for quality and environmental control
- ✓ Cardboard and plastic bags reused over 5 times before recycling
- ✓ Most efficient paint system in the industry, emitting no solvents
- ✓ Recycled steel debris
- ✓ Advanced finishing system: less material, heat recovery, water reuse
- ✓ Electrostatic powder coating, an eco-friendly process
- ✓ Plastic residues generated during injection are shredded and 100% recycled to produce bins
- ✓ Paper and cardboard collection and recycling
- ✓ Packaging optimization
- ✓ Our DUROTOP desktops and DUROEDGE table edges improve product lifespan
- ✓ Reuse and repair of transport pallets
- ✓ Laminated plastics and MDF with ecological certifications
- ✓ Local sourcing to reduce greenhouse gas emissions
- ✓ Very long product durability, reducing environmental impact
- ✓ Conservation of molds and replacement parts for all our old product models to extend furniture lifespan
- ✓ Direct delivery by our truck fleet
- ✓ Delivery consolidation for route optimization
- ✓ Maximizing truck loadings to minimize shipments

Made in Canada
